Abstract (en)  
[origin: EP2604545A1] The container has a plastic inner container part including side walls (12-15), lower wall (16) and an upper wall (17) supported by a base frame (29). A closable filler neck is formed on the upper wall, and a draining neck (20) with a tapping armature (21) is formed on a lower section of one of the side walls. A cage mantle (22) with metal horizontal bars and metal vertical bars receives the inner container part. Upper ends of vertical bars include a convex cross-section outline in transition of a connection section to a bent section on an inner side facing the inner container part.
