Abstract (en)

[origin: EP2604783A1] The casement profile (4) has bridge blocks (20) that are non-positively and positively arranged in intended position on profile main portion by spring elements (18). The profile main portion is arranged at different height levels in folded regions. The profile main portion is made of aluminum, aluminum alloy and PVC. A fastening bar (12) is arranged on outer side of profile portion (15) for receiving bridge blocks.
