Abstract (en)

[origin: EP2607226A1] The apparatus (10) has holding device (22,24) for fixing the apparatus main structure in the area of the weapon (26). The releasable unit is connected to the unmanned underwater craft (12) such as mine destruction drone. The apparatus main structure is connected to the unmanned underwater craft that is fixed in the area of the weapon. The mass of apparatus main structure under water is less or greater than the mass of water under apparatus main structure. An independent claim is included for method for clearing weapon.
