Abstract (en)  
Recessed hinge for door or window frames or furniture, having a mobile part (14) articulated with respect to a fixed part (13), comprising two containing bodies (11, 12), shaped so that each has a compartment (23, 24) and configured to be associated one with the fixed part (13) and the other with the mobile part (14), and an articulation member to articulate the two containing bodies (11, 12) with respect to each other.
