Abstract (en)

[origin: EP2607597A1] The present invention relates to a frame assembly kit 100 for construction work, to a fixation device 40 mountable on the frame assembly kit 100, to a method for manufacturing and for mounting a frame assembly kit. The frame assembly kit 100 comprises a permanent frame section 10 and a temporary frame section 20. The temporary frame section is utilized for stabilizing the permanent frame section 10 in an operating mode of the frame assembly kit 100. The frame assembly kit 100 comprises at least three outer members 11, 12, 13, forming a frame and at least one inner member 21, 22 stabilizing the frame. All members are connected to each other via plug connections 31, 32, 33.
