Abstract (en)

[origin: EP2607824A2] The device has a first assembly board (103) with a first mounting portion (107) for securing the first assembly board on housing of first household appliance (127), and first connecting portion (111). The second assembly board (105) comprises second mounting portion (109) for securing the second assembly board on housing of the second household appliance (129), and second connecting portion (113). A connector (131) is arranged on first and second connecting portions for mechanically connecting first and second assembly boards.
