Abstract (en)  
[origin: EP2608322A1] The conductor terminal (1) has insulant housing (2) that is provided with conductor insertion opening (5). The lower contact element (24) is formed for contacting a contact terminal (17b) of electronic component (18) such as capacitor in the receiving chamber (19). The upper contact element (7) is provided at the top of the conductor terminal opposite to the bus bar (20). The upper contact element is provided for contacting a contact terminal (17a) of the electronic component received in receiving chamber.
