Abstract (en)

[origin: WO2012024745A1] A mannequin, method and system for facilitating making, altering and/or purchasing clothing by a user. The mannequin includes: a body that substantially resembles that of a prospective user of clothing and / or adornments, the body including an outer contour; a plurality of sensors attached to the body, for providing one or more quantitative indications of performance of the clothing and / or adornments fitted to the mannequin; and a data transmission interface connected to the sensors operable to transmit the one or more quantitative indications of performance of the clothing and/or adornments.
