Abstract (en)  
[origin: WO2012025385A2] The invention relates to a refrigerator, in particular a domestic refrigerator, having an inner container (2) with a front opening (4), which can be closed by a door leaf, for the removal and/or insertion of refrigeration articles, and a pull-out refrigeration article container (3), as well as mounting means (5) for mounting the refrigeration article container (3) in the inner container (2) in a pull-out manner, the mounting means (5) having at least one roller (8a, 8b) which is disposed in a front region of the inner container (2) and on which a counter bearing face (9a, 9b) of the refrigeration article container (3) rolls in the pull-out direction, and at least one counter bearing point (6a, 6b) which is disposed in a rear region of the refrigeration article container (3) and is supported on a counter slide bearing face (7a, 7b) on the inner container (2).
