Abstract (en)
[origin: WO2012028288A2] The invention relates to a plastic-bonded explosive formulation that consists of an explosive or explosive mixture, graphite, a chlorinated rubber, a plasticiser or plasticiser mixture and optionally a further bonding agent. The explosive formulation can additionally contain an inorganic fuel or a fuel mixture and/or an inorganic oxidising agent or an oxidising agent mixture. Alternatively, the explosive formulation can additionally contain a heavy metal and/or an inorganic compound and/or an inorganic oxidising agent or oxidising agent mixture.
