Abstract (en)
[origin: WO2012113636A1] The invention relates to a pressure switch (1) having an actuating element (2) and a tubular body (3), wherein a receiving element (4) is arranged in the interior of the pressure switch (1) in which a latching element (5) is fastened. The invention is characterized in that the latching element (5) is designed to be radially elastic.
