Abstract (en)
[origin: WO2010150006A2] A heating installation (10) comprises at least one solar panel (14) comprising a photovoltaic cell region (18) linked to a rechargeable battery array (22), a main heat source (13) linked to an indirect hot water storage tank (11), at least one fan convector heating unit (29) linked to the battery array (22) and the indirect hot water storage tank (11), and pump means (17, 28) linked to the battery array (22). The pump means (17, 28) is adapted to pump water between the main heat source (13), the indirect hot water storage tank (11) and the fan convector heating unit(s) (29).
