Abstract (en)

[origin: EP2615694A2] The plug-on element (10) has a sleeve-like base (11) which is formed by deforming one of two longitudinal edges and two transverse edges of material strip and connecting the longitudinal edges. The locking elements are arranged at longitudinal edges of top surfaces (14a, 14d) of the material strip, and provided with locking portions. The longitudinal edges of material strip are connected to sleeve-like base by locking elements.
