Abstract (en)

[origin: EP2615695A1] The connector (1) has connector main portion (5) and protective unit (11) comprising a protective main portion (13) and antikink (17). The protective main portion covers connector main portion and the antikink covers data cable (3). The antikink is prefabricated element and the protective main portion is cast molding element, which are interconnected by material bond. An independent claim is included for method for production of connector.
