Abstract (en)

[origin: WO2012036621A1] A device and method for extracting a mussel foot from a mussel (2), wherein the device comprises a suction device adapted to create a suction pressure, the suction device having an end aperture (20a) arranged at a first end thereof, wherein the suction pressure of the suction device during operation erects the mussel foot from a mussel adjacent to the aperture and sucks the mussel foot through the end aperture of the suction device and wherein a cutting device (22a-f) is arranged adjacent the end aperture of the suction device.
