Abstract (en)

[origin: EP2617529A2] The method involves transmitting wirelessly the hand-held power tool information of hand-held power tool (10) to a mobile device (12) during specific operation e.g. drilling operation of the hand-held power tool. The mobile device is provided to transmit the hand-held power tool information with dependent information including inclination information (14) obtained from an inclination sensor (16) of the hand-held power tool to operator. The mobile device is made to store the operation information of the hand-held power tool. Independent claims are included for the following: (1) system for operating hand-held power tool using mobile device; (2) hand-held power tool; and (3) mobile device.
