Abstract (en)

[origin: EP2620328A1] Disclosed is an installation structure for a loudspeaker system (10, 30, 40) in a vehicle, the loudspeaker system being installed in a vehicle front space (120) separated from a vehicle interior (110) by a partition (112), the vehicle front space being anterior to the vehicle interior, the installation structure including a sound guide port (14, 34, 44) extending through the partition (112). The sound guide port allows a sound output space on a diaphragm (25, 55) in the loudspeaker system to communicate with front part of the vehicle interior (110).
