Abstract (en)
[origin: WO2012059168A1] The invention relates to a furniture fitting for a movable furniture part, in particular for driving a folding flap, a folding door, or the like, wherein the movable furniture part has a first folding part and a second folding part, which are connected to each other in an articulated manner at a hinge axis (88), wherein the furniture fitting (11) has a joint arrangement having a plurality of joint arms that are connected to each other in an articulated manner and that can be pivoted relative to each other, wherein said joint arrangement connects the first or the second folding part to a furniture body (12) of a piece (10) of furniture when the furniture fitting (11) is installed on the piece (10) of furniture, wherein the furniture fitting (11) further comprises a control lever (94), which can be pivotably mounted at one end about a body-side pivot axis (95) and can be mounted at the other end, on one of the two folding parts or on a bearing part that can be fastened there, so as to be pivotable about a furniture-part-side pivot axis (96). In said furniture fitting, the control lever (94) is connected to a steering lever (100) in an articulated manner by means of the body-side pivot axis (95), wherein said steering lever is pivotably mounted relative to the furniture body (12) by means of a steering-lever pivot axis when the furniture fitting (11) is installed on the piece (10) of furniture.
