Abstract (en)

[origin: WO2012045365A1] The invention relates to a solid of alkaline concentrated cleaning composition, a solution thereof and methods for automated cleaning processing of surfaces with effective cleaning compositions. The solid alkaline composition for cleaning metal surfaces, comprising at least one alkaline source, at least one polyethylene glycol and at least one corrosion inhibitor, wherein the ratio of alkaline source to polyethylene glycol is in the range from about 30 : 1 to about 2 : 1.
