Abstract (en)
[origin: WO2012046165A2] The invention relates to a domestic appliance device, comprising an evaluating unit (10) for evaluating the consumption of at least one external resource by a domestic appliance (12), and an output unit (14) for outputting the evaluated consumption. In order to provide a generic domestic appliance device having increased ease of use, according to the invention the evaluating unit (10) evaluates the consumption of the external resource while taking into consideration at least one variable evaluating parameter.
