Abstract (en)

[origin: EP2626950A2] The antenna arrangement structure (1) has a carrier film (2) which is provided with an antenna structure and an electronic device. A contact region of the antenna structure arranged on a tab portion (9) formed by the carrier film is contacted with a contact region (16) of the electronic device. The electronic device is arranged in a housing (4) that is inserted with the tab portion, such that the carrier film is fixed in specific position of the housing. An independent claim is included for an antenna manufacturing method.
