Abstract (en)
[origin: EP2628689A1] The push-pull closure (1) has a mouthpiece holder that comprises a passage opening and a holding unit, with which the mouthpiece holder is fastened to the edge of an opening of the drinking container in sealing and detachable manner. A pin projects in the passage opening of the mouthpiece holder. A circumferential gap is provided between the pin and the passage opening. Multiple grousers (9) are arranged around the pin and parallel to the pin. A mouthpiece (3) with another passage opening is provided for the drink.
