Abstract (en)
[origin: WO2012052453A2] The present utility model discloses a refrigerator shelf, which comprises: a shelf body; a U-shaped decorative strip, a first stop part and a second stop part being arranged at a first side and a second side of the U-shaped decorative strip respectively, and both the first and second stop parts being exposed outside of the bottom of the U-shaped decorative strip; and a bottom plate arranged at the bottom of the U-shaped decorative strip, wherein a mounting groove is formed between the bottom plate and the bottom of the U-shaped decorative strip, both ends of the bottom plate are provided with hooks, and one end of the shelf body is mounted in the mounting groove. As for the refrigerator shelf described therein, the assembling and manufacturing of the refrigerator shelf can be achieved only by embedding the shelf body into the U-shaped decorative strip during the installing process, with the simple assembling. At the same time, the one-piece configuration of the U-shaped decorative strip enhances the mounting and positioning reliability of the refrigerator shelf. The utility model also provides a refrigerator having the above shelf.
