Abstract (en)  
[origin: EP2631046A1] The cutting device (1) has a support plate (2) for supporting the sheet material. A guillotine cutting device (3) is equipped with pivotably mounted blade arm (10) for holding a counter knife in fixed position. A rotary cutting device (4) is extended parallel to counter-blade. The support plate is divided into plate portions (15,16) such that extension section (23) of plate portion (16) is not greater than extension section (22) of plate portion (15). The plate portions are coupled such that the plate portion (16) is placed on plate portion (15) in transport position.
