Abstract (en)

[origin: WO2012055941A1] The invention relates to a solid pharmaceutical composition comprising telmisartan or a pharmaceutically acceptable derivative thereof, optionally one or more basifying agents and at least one calcium channel blocker. More specifically the invention discloses a pharmaceutical composition comprising telmisartan and amlodipine that comprises at least one non- hygroscopic filler and/or at least one non- hygroscopic binder, that do not exhibit a disintegrating effect, and/or at least one hydrophilic lubricant.
