Abstract (en)  
[origin: WO2012057693A1] The present invention relates to a device for protecting and storing a security case, wherein the device (1) comprises a security shell (2) having an inside (30) and an outside (31), which security shell (2) encloses a cavity (3), which cavity (3) is arranged for containing the security case (4), wherein the cavity (3) is connected with an opening (5) in the security shell (2) through which access to the cavity (3) is provided for putting or taking out the security case (4); the device (1) further comprises a locking arrangement (6) for securing the security case (4) in the cavity (3), wherein the locking arrangement (6) is a locking device (20) arranged inside the cavity (3) and arranged to secure the security case (4) in the cavity (3). Furthermore, the invention relates to a system comprising at least one such device (1) and at least one security case (4).
