Abstract (en)

[origin: WO2012058607A2] The present disclosure features systems and methods for maintaining consistency of a CAD model across a plurality of homogenous or heterogeneous applications across one or more computing devices and used by one or more users. The present disclosure features methods and systems for managing concurrent design of computer-aided design objects or models. The present disclosure is directed to systems and methods for managing concurrent design of computer-aided design objects or models.
