Abstract (en)
[origin: EP2634134A2] The device has housing (11) that is provided with the receiving space. The drink bag (1) is provided in housing. The side wall (25) of the housing is provided with opening. An air conditioning device (16) is provided to cool the receiving space. The opening is elongated, so that the drain tap in the opening is adjusted in height. The outlet tap is inserted or withdrawn into/from upper mounting section of the opening. A lower retaining region is formed to prevent retraction of the drain tap.
