Abstract (en)

The invention relates to a washer/dryer appliance (22) with a ventilation assembly (1), whereby the ventilation assembly (1) comprises a ventilation duct (2) which forms a flow channel and a fan (4) with a fan motor for sucking air into the ventilation duct (2), and whereby the fan (4) is connected electrically to at least one first connecting cable (8). The ventilation assembly (1) comprises at least one supporting region (6) for supporting at least a first portion (8a) of the at least one first connecting cable (8).
