Abstract (en)

The leg (1) has a fixing unit (10) that is utilized for fixing of the leg to a vertical support. A support unit (20) is utilized for supporting a set of insulation elements, where the support unit is rigidly connected to the fixing unit and is designed to penetrate the set of insulation elements. The support unit comprises a set of anti-withdrawal units (22a, 22b, 23a, 23b) that is utilized for the set of insulation elements, where the anti-withdrawal units are designed to act inside the set of insulation elements. An independent claim is also included for a method for insulation of a support.

Abstract (fr)

L'invention concerne une patte (1) pour l'accrochage d'éléments d'isolation sur un support sensiblement vertical comportant : - un moyen de fixation (10) de la patte au support, - un moyen d'appui (20) des éléments d'isolation, ledit moyen d'appui étant rigidement relié audit moyen de fixation et prévu pour pénétrer les éléments d'isolation, le moyen d'appui (20) comportant des moyens d'anti-retrait (22a, 22b, 23a, 23b) pour les éléments d'isolation, lesdits moyens d'anti-retrait étant prévus pour agir à l'intérieur des éléments d'isolation. L'invention porte également sur un procédé d'isolation utilisant la patte d'accrochage.
