Abstract (en)  
[origin: EP2634345A2] The security switchgear cabinet has bottom element (1), two side wall elements (2), rear wall element (3), head element (4) and door element (5). The side wall elements are rigidly connected to the frame (20). The rear wall element is hinged at one of the side wall elements, which is pivoted between open position and closed position. The attaching brackets are connected with the frame.
