Abstract (en)

[origin: EP2636349A1] Suction tool (2) for an electric vacuum cleaner includes first suction tool (10) that has a first suction port for suctioning dust, and second suction tool (20) that has a second suction port communicating with the first suction port and that is detachably engaged with first suction tool (10). Moreover, the suction tool includes third suction tool (30) that has a third suction port communicating with the second suction port and that is detachably engaged with second suction tool (20). Furthermore, the suction tool includes first operation part (42) for disengaging first suction tool (10) from second suction tool (20), and second operation part (48) for disengaging second suction tool (20) from third suction tool (30).
