Abstract (en)
[origin: EP2636569A1] The carriage (1) has a carriage frame (5) provided with multiple pairs of container pins in combination with a form-stable loading frame (7), a rectangular frame and upright posts, for transportation of standard and special containers. The rectangular frame is welded with longitudinal and transverse carriers (10-12), which are made of steel profiles. The posts are located at corner regions and made of steel profiles. The loading frame is positionable on the container pins. Length of the loading frame is between 6 and 8 feet.
