Abstract (en)
[origin: EP2636984A2] The stock (1) has a stock front portion (2) detachably connected to a stock rear portion (3). The stock front portion and the stock rear portion are connected to each other by a plug connector. The plug connector is attached by fastening elements i.e. screws. The plug connector comprises a rib-like male plug-in component that is arranged on the stock front portion, and a slot-shaped female receiving component that is fixed corresponding to the male plug-in component and arranged on the stock rear portion, where the stock is made of a plastic material.
