Abstract (en)
[origin: WO2012064187A1] A system provided with panels, for example glass sheets, and with substantially steel elements (1, 2, 3) extending parallel to edges of the panels, wherein thermally insulating parts (14) extend between said steel elements (1, 2, 3) and are connected by means of connecting means to connecting surfaces of the steel elements, wherein said connecting means comprise connecting element (11), which connecting elements (11) are each provided with a steel connecting flange (12).
