Abstract (en)

In a unit of a foldable stand and a cooling device, where the foldable stand is made from bendable material and with its lower part is nestled on the cooling device and partly surrounds the cooling device, and where the foldable stand (600) comprises panels and at least one bendable shelf (450) having a shape of a spatial body, where at least a front panel and a back panel of the foldable stand (600) is bendable, between side panels of the foldable stand (600) is inserted at least one shelf (450) with catches protruding beyond sides of the bendable shelf (450) and hooked in openings of the side panels of the foldable stand (600). The bendable shelf (450), which when stretched forms a stiff non-removable spacer between the side panels of the foldable stand (600) and has a lower wall, which is bendable along at least one bending line.
