Abstract (en)

A roof rail system (1) comprising a first base element (2) for attachment to a roof (5), a rail support (3) and an attachment part (4) is disclosed. The rail support (3) comprises a first portion (31) and a second portion (32), wherein the first portion (31) is being arranged to be attached to the first base element (2) at a first position (21) of the first base element (2). The attachment part (4) comprises a first end (41) and a second end (42). The first end (41) is being arranged to be attached to the first base element (2), and the second end (42) is being arranged to be attached to the rail support (3). The rail support (3) abuts against the first base element (2) at the first position (21), and the first end (41) of the attachment part (4) is arranged to be attached to the first base element (2) at the first position (21).
