Abstract (en)  
[origin: WO2012066401A1] A stable liquid oral pharmaceutical composition comprising montelukast, a vehicle comprising mineral oil, desiccant and optionally pharmaceutically acceptable additives is provided. The invention also relates to kit for dispensing of oral pharmaceutical compositions of Montelukast. The kit comprises montelukast, a vehicle comprising mineral oil, desiccant and optionally pharmaceutically acceptable additives. The kit comprises a first container comprising pharmaceutical composition of montelukast and optionally desiccant, a second container comprising a vehicle comprising mineral oil, optionally desiccant and pharmaceutically acceptable additives, and instructions for use. montelukast and mineral oil occupy pre-measured volume into the respective unit of the kit.
