Abstract (en)
[origin: WO2012066185A1] Insulation for the insulation of a regulating box for ventilation, which regulating box comprises at least one inlet branch coupling for the air flow and at least one outlet branch coupling for the air flow, and inside which regulating box at least one insulation (3) is fitted, and which regulating box is at least partly manufactured from metal. The invention is implemented such that one or more magnets (5') are installed onto that surface (6) of the insulation (3) that will be against the metallic inside wall of the regulating box, by means of which magnets the insulation (3) is fixed to the regulating box in a detachable manner.
