Abstract (en)  
[origin: EP2641492A1] A glove (20) comprises a palm panel (10) and a back hand panel (12), the palm panel (10) and the back hand panel (12) being joined by at least one seam (14, 15) to form the glove (20) having a palm side and a back hand side. The glove (20) is further provided with a coating (22) on one side of the glove (20) which extends partially onto the other side of the glove (20) forming a first sealing means to seal the seam (14, 15) over at least a portion of the length thereof, wherein a second sealing means (42) is provided which seals the seam over at least a portion of its length which is not sealed by the coating.
