Abstract (en)

A casting mould system comprising at least one plate (1, 1') that is made of heat insulating material, on the surface of which grooves (6, 6') are in the longitudinal and/or lateral direction of the plate, and side mould pieces (2, 2', 2''), which pieces are at at least one of their edges formed compatible with the grooves (6, 6') arranged on the surface of the plate (1,1'). Elements comprising a cast layer and a heat insulating layer in connection with it can be manufactured with the casting mould system.
