Abstract (en)

[origin: EP2642040A2] The connector (2) has receptacle (9) for locking bolt (10), is arranged in angle connector main portion. The locking bolt is inserted into the receptacle, so that compression, latching or bonding of the locking bolt are prevented. The leg (3) of the angle connector main portion is provided with screw channels (4,5). A guidance section (21) is provided with conducting adhesive. The screw channels are made of soft material. An independent claim is included for assembly tool.
