Abstract (en)

[origin: EP2642455A2] The electronic key (10) has housing (20) that is arranged with an electronic unit (11) for data communication with the security system (2). An energy storage unit (13) is inserted into opening (12) of housing for supplying power to the electronic unit. A battery holder (30) is arranged in opening of housing so that the energy storage unit is provided in battery holder. The energy storage unit in the battery holder forms preassembled constructional unit.
