Abstract (en)
The present invention relates to a bag (10; 20; 30; 40) for storing and washing wet/dirty items, a storage compartment (11; 21; 31; 41) formed by a fluid permeable compartment wall and comprising at least a first opening (15; 25; 35; 45) closable by first closing means (13; 23; 33; 43), and a shielding compartment (12; 22; 32; 42) comprising at least a second opening (16; 26; 36; 46) closable by second closing means (14; 24; 34; 44), wherein said first and second compartment are secured to each other, and the shielding compartment in one configuration of the bag is enclosing said storage compartment, and in a second configuration removed from said storage compartment to reveal said storage compartment and make washing/drying of the items within the bag possible without removing them from the storage compartment..
