Abstract (en)

[origin: EP2644382A2] The printing component assembly has several printing plates (01) that are arranged side by side in axial direction of the print cylinder. A holding unit (11) is arranged to hold support surface of printing plate. A supporting element is arranged to support the support surface of printing plate. A pressing element (66) is arranged to apply pressing force on the printing plate. A control unit is arranged to control bending movement of holding unit, supporting element and/or pressing element along axial direction of print cylinder.
