Abstract (en)
The present invention relates to an annular barrier (1) for mounting as part of a well tubular structure (3), the annular barrier being adapted to be expanded in an annulus (2) between the well tubular structure and an inside wall (41) of a borehole (4). The annular barrier comprises a tubular part (6) extending in a longitudinal direction and an expandable tube (7) having a centre axis (72) extending outside the tubular part in the longitudinal direction.
