Abstract (en)

[origin: CN103225786A] The invention relates to an actuator of a projection assembly (5). The actuator comprises a cut-off cover (10) used for stainless steel optical module (1) and a cover support (11). The cover support (11) is mounted horizontally on a contact area of the cut-off cover (10). The cut-off cover (10) comprises a central portion (71) and two longitudinal ends (72, 73), wherein the central portion (71) is suitable for being disposed on the optical axis path of the optical module. The cut-off cover (10) has a thickness between 0.4 mm and 0.65 mm. The contact area is arranged at a position more than 25 mm away from the central portion. The invention also relates to an optical module (1) including a cut-off assembly (5).
