Abstract (en)
[origin: EP2644982A1] The arrangement has a LED light source (2) for light emission, and a diffuser (3) arranged in the front of the LED light source. The output of lamp (11) is performed over the diffuser. A lens arrangement (14) is provided between the LED light source and the diffuser, in such a manner that the entire light emitted from the LED light source is directed completely and evenly over the diffuser. The reflector wings (7) are laterally arranged between the lens arrangement and the diffuser.
