Abstract (en)
[origin: WO2012077968A2] The present invention relates to a pharmaceutical composition comprising lercanidipine hydrochloride and valsartan as active components and a method for the preparation thereof. The pharmaceutical composition comprising lercanidipine hydrochloride and valsartan according to the present invention has a superior effect on the prevention and treatment of cardiovascular diseases and their complex diseases, and reduces the adverse effects of each component. In addition, the present composition comprises lercanidipine hydrochloride and valsartan in a separated form so as to increase the dissolution rates of both components and reduce the adverse effects.
