Abstract (en)  
[origin: WO2012078036A2] Method for repairing an existing coke oven battery with a plurality of coke oven chambers, wherein each chamber has two opposite coke oven walls, comprising tearing down at least one of the existing coke oven walls during operation of the coke oven battery, and establishing a new coke oven wall to replace the torn down coke oven wall, wherein tearing down of an existing coke oven wall is executed by operating a crane which is movable on top of the coke oven battery, and which crane is provided with a breaking and/or gripping tool having a reach to the bottom of a coke oven chamber. The new coke oven wall is prefabricated and placed into position in the coke oven battery after removal of the existing coke oven wall.
